Kaufman Funds
10855 Piccadilly Square Drive
Saint Louis, MO 63146

Dear Friends,

Because of your generosity FOCUS Marines Foundation continues to serve wounded Marines and Navy Corpsmen seeking help in living life with PTS, TBI and/or physical disabilities. Your donation of \$3000 on 11/20/2015 ensures that these men and women are given the tools needed to successfully transition from military to civilian life.

The impact of the FOCUS program is heard in the words of our past graduates. Men and women who have taken what has been taught and turned it into life changing choices upon returning home. Read what some of our past graduates write:

"FOCUS is responsible for the 180 degrees turn around in my life. Since leaving the class I have found the strength to apply for programs like Mission Continues, EBV, Team Semper Fi, and even return to see higher education. I have been accepted into all three programs, and now a fire burns inside of me that cannot be extinguished by the frost of fear." ~Theophilus T.

"... FOCUS changed my entire life! I have finally found the new Mike that I can live with and so can society. I have used the tools they gave me to overcome so many bad things already just shortly after completion of the program. I now have a new family that supports me in anything I do and they are always there when I need someone. We will never be the same person after combat, but we can find a new person within ourselves to be better than we were before. FOCUS has given me that and for that I am forever in their debt, a debt that I will spend the rest of my life to try to repay! Thank you FOCUS for giving me my life back and my wife and family their husband, father, brother and grandfather. My family is also in your debt for this." ~Mike H.

You are making a difference. Your gift helps us to provide transportation, food, lodging and course material at no cost to any of our participants. Your gift ensures that individuals like Theo and Mike receive the help they need. Thank you again for your generous support!

Sincerely,

Ted Kretschmar
